SUSTAINABILITY IS A PRIORITY

73% of consumers are willing to change their consumption habits to reduce their environmental impact.

90% of executives see sustainability as important.

75% of investment company execs think sustainability performance should be considered in investment decisions.

70% of millennials said that if a company had a strong sustainability plan, it would make them more likely to work there long term.

HOW SUPPLY CHAIN VISIBILITY CAN HELP

- 1 Reduce dwell time
- 2 Reduce empty miles
- 3 Reduce food waste with temperature tracking

With network partner lane matching, one wholesale grocer reduced deadhead by **500 empty miles, 2x per week.**
